

# LEED Credits Available for **Laykold**<sup>®</sup>

Advanced Polymer Technology is dedicated to supplying its customers with quality products that not only possess exceptional physical properties, but also contribute to a “greener” environment.

The following products could help in contributing towards gaining LEED points and certification:

## **Regional Material: 1-2 points**

APT manufactures its products in Harmony, Pennsylvania. If your project site is within 500 miles from this location then APT products can contribute towards LEED points.

## **Solar Reflective Index: 1-2 points**

Mocha—35	Scarlet—36
Grass Green—32	Canary—63
Arctic—46	Key Lime—48
Pumpkin—54	Kiwi—41
Coral—55	Teal—36

## **Rapidly Renewable Materials: 1 point**

Poly Primer—44.7%  
Crack Filler—37%

## **Low Emitting Materials: 1 point**

Acrylic Resurfacer VOC ~ 32.0 g/L	Poly Primer ~ 7.1 g/L
NuSurf VOC ~29.5 g/L	Crack Filler ~ 0 g/L
CCC/Colorflex/Colorflex VOC ~ 29.5 g/L
